Life in a castle: the Middle Ages.

<https://live.etwinning.net/projects/project/175357>

Life in the Middle Ages: that is what is all about! Let's discover how was life in that amazing period of time. Castles, queens and kings, lords, knights, peasants... there is so much to learn about. Have a look and enjoy!

Pretende-se descobrir a vida no período medieval, isto é, conhecer melhor a vida nos castelos, os reis e as rainhas, a burguesia, os cavaleiros e o povo, com o objetivo de aprender a história de cada país, percebendo desta forma as semelhanças e as diferenças.

Make Cultural Heritage Part of Our Future

<https://live.etwinning.net/projects/project/176828>

We propose a cultural project. We are a rural school in the Larnaca District of Cyprus. We would like to start our project by the end of September and work during the whole school year. Student are 9-12 years old and will work around one hour per week. Students will learn about other European heritage cultures in order to understand, value and respect, learn to care and protect and finally enjoy what passed on from past generations to us. They also compare cultural heritage among the participating countries and find similarities and differences. Students will present their cultural heritage: Tangible: historical monuments and buildings, archaeological sites as well as natural environment (rural landscapes, coasts and shorelines, agriculture heritage) Intangible: language, traditions, myths, legends and traditional fairy tales, traditional music, dances, food, games, clothes, performing arts, social practices, traditional craftsmanship, etc. Mobile artefacts: paintings, drawings, prints, mosaics, sculptures Students will use web 2.0 tools and ICT in order to present their cultural heritage to their colleagues. The project will be carried out by students in collaboration with their teachers and maybe with local authorities (tourism organization, museums, etc).

Pretende-se que os alunos conheçam o património cultural com o objetivo de levá-los a compreender a importância deste, a respeitar e a valorizar o que nos foi legado pelos nossos antepassados. Desta forma, poderão partilhar, comparar o património de cada

um dos pais envolvido no projeto, descobrindo as semelhanças e as diferenças entre eles.

"Our artists".

<https://live.etwinning.net/projects/project/175628>

We want to more about artists in our country and share what we learn with other students from all over Europe and learn from them about their artists. We want to share our own creations with a travelling book of art, learn and enjoy art from our country and overseas. I'm sure we will all enjoy by learning and sharing our knowledge...

O projeto visa descobrir, conhecer e dar a conhecer os diversos artistas do nosso país e dos países envolvidos no projeto, partilhando assim as aprendizagens entre todas as partes.

SEA of Wonders - Share, Empower and Accept

<https://live.etwinning.net/projects/project/170307>

This project is aimed at 10-18 year old students living by the sea. Students will embark on a fascinating journey to rediscover the age-old influence of the sea by exploring local legends, traditions, food, art and crafts. Sharing our artistic and historical heritage is key to raising awareness of culture diversity in order to promote tolerance and acceptance.

Students will work for the sea environment with accordance to sustainable development goal no 14 "Life below water".

O projeto eTwinning "Sea of Wonders" pretende refletir sobre a biodiversidade dos oceanos, a preservação do património natural e do património cultural ligado ao mar, capacitando os alunos para a importância da proteção dos oceanos e da vida marinha. Participam alunos dos 10 aos 18 anos oriundos de países europeus localizados à beira-mar, que irão embarcar numa viagem fascinante, explorando e partilhando lendas, antigas tradições, gastronomia e artesanato dos seus países de origem.

Este projeto insere-se no âmbito do objetivo 14 de Desenvolvimento Sustentável - Vida na Água: "Conservação e uso sustentável dos oceanos, dos mares e dos recursos marinhos para o desenvolvimento sustentável" da ONU.

The Glory of a Story

<https://live.etwinning.net/projects/project/176482>

Students from partner countries will invent stories and create an ebook and a paper book with all of them. They will work in pairs and small groups in class and in international groups as well. A group will start a story and another will continue it. They will use online apps to create comics strips out of their stories.

O projeto eTwinning “The Glory of a Story” centra-se na invenção e construção de histórias colaborativas que representem a exploração de temas em estudo. Os alunos trabalharão em pequenos grupos e em atividades colaborativas com alunos de várias faixas etárias das escolas parceiras.

Pretende-se desenvolver competências comunicativas em língua inglesa, assim como desenvolver a criatividade na abordagem interdisciplinar dos temas.
